

SAFETY AWARD CELEBRATION

Three Rivers Manufacturers' Association (TRMA) held its Annual Dinner Event on March 19th. Presiding over the celebration was Monica Mainland, the first woman chairperson in TRMA's 86-year history, and she is also Refinery Manager at ExxonMobil Joliet Refinery. Another first was recognizing Jonathan Frazier as TRMA's Scholarship recipient in honor of Jerry Caamano. TRMA established a perpetual scholarship at Joliet Junior College to honor the dedication of its retired, longtime executive director.

A highlight of the event was the safety awards recognition. Industrial contractor companies, who perform work at TRMA manufacturing plants, were recognized for excellence in safety. Despite the

challenge, over 70 contractor companies earned awards for their high-level of safety performance in 2018!

Equally impressive is that many awardees worked all of 2018 without a single safety incident, achieving the ideal – Zero Incidents. TRMA manufacturing members prioritize safety; and their resulting safety culture is evident in their employees and their contracted workforce safety results. We celebrate that our member plants achieve OSHA (Occupational Safety and Health

Administration) recordable rates well below the national average.

Since TRMA partners with its members to offer safety training, TRMA aggregates the incident rates of its member companies. Using this combined data, the TRMA OSHA incident rate is the lowest in the country!

Congratulations to all TRMA award recipients!
