 A PROGRAM OF THE THREE RIVERS MANUFACTURERS' ASSOCIATION

ENVIRONMENTAL DIVISION

Illinois EPA's New Industrial Stormwater Permit

Date: Tuesday, October 10, 2017
Place: Three Rivers Safety Center
 1615 W. Jefferson Street, Joliet
 (1 block east of Larkin on Jefferson Street)

Time: Noon to 1:30 p.m.

Cost: \$35 for TRMA members
 \$49 for non-members
 (Includes lunch)

Purpose: To review changes in the Illinois EPA's Industrial Stormwater Permit that became effective in April of this year.

Who Should Attend? Owners, operators, plant managers, production managers, environmental managers, engineers, POTWs and environmental professionals

The Illinois General NPDES Permit for Storm Water Discharges from Industrial Activities expired in 2014. The new permit became effective April 5, 2017 with many significant changes. Many of these additional requirements were required to be in place six months from the effective date of the permit, October 5, 2017. This presentation will walk through the changes in the permit to assist permittees in maintaining compliance with the permit.

At the end of this presentation, the participant will be able to:

1. Understand the requirements of the new permit
2. Know what steps their facility must undertake in order to be in compliance, both short and long term
3. Know where to get additional help with the new requirements, if needed

Presenter: Mark R. Willobee, CPESC
 Senior Engineer, Geosyntec
 Consultants, Inc.
