

INTERNET SAFETY

Safe

Keep safe by being careful not to give out personal information when you're chatting or posting online. Personal information includes your email address, phone number and password.

Meeting

Meeting someone you have only been in touch with online can be dangerous. Only do so with your parents' or carers' permission. Remember online friends are still strangers even if you have been talking to them for a long time.

Accepting

Accepting emails, IM messages, or opening files, pictures or texts from people you don't know or trust can lead to problems – they may contain viruses or nasty messages!

Reliable

Someone online might lie about who they are and information on the internet may not be true. Always check information with other websites, books or someone who knows.

Tell

Tell your parent, carer or a trusted adult if someone or something makes you feel uncomfortable or worried, or if you or someone you know is being bullied online.
