

Three Rivers Manufacturers' Association

[www.trma.org](http://www.trma.org)

From the beginning of the COVID-19 crisis, TRMA has remained committed to protecting the health and safety of our students, staff, and their families. Comprehensive disinfection protocols, facility-wide air purification systems, and protective barriers are a few of the administrative and engineering controls in place to ensure a safe learning environment.

To continue providing you with the safest possible learning environment during this challenging time, effective February 5<sup>th</sup>, 2021 a \$5 surcharge will be applied to BOP/BOPR courses.

We appreciate your support and understanding as we find our way through the ever-changing pandemic. We look forward to supporting accident-free workplaces and “promoting manufacturing excellence.”
