

High School & Middle School Safety Poster Contest

01

The Contest

The Three Rivers Education Partnership (TREP) is thrilled to announce the winners of our annual poster contest, which focused on the theme of SAFETY—recognizing and eliminating safety hazards.

Creative Ideas

This year's contest invited students to create posters that emphasize the importance of making safe choices to prevent accidents and injuries in various aspects of life, whether at home, work, play, or school.

02

03

We received an impressive array of entries showcasing the students' creativity and understanding of safety principles. Each poster was a testament to the students' dedication to promoting a safer environment for everyone. From illustrating smart ways to recognize and prevent accidents to highlighting the importance of safe practices in everyday activities, these posters serve as powerful reminders of the critical role safety plays in our lives.

These outstanding posters will be proudly displayed in participating schools and businesses to promote safety awareness across our community. In addition, the winning artists have received scholarships, which will be presented during their respective school awards ceremonies.

This contest would not have been possible without the generous support of our sponsors. We extend our heartfelt thanks to:
